

# KAJIADO DEVELOPMENT TRUST

NON-PROFIT ORGANIZATION PROFILE

# WHO WE ARE

- KADET was formed in 2017 to assist in the development of rural communities within Kenya.
- KADET is fully committed to the process of rural transformation in Kenya. Our goal is to help communities affected by drought in Kenya.
- KADET hopes to install boreholes all through KAJIADO county, as it's the most affected.

# OUR MISSION STATEMENT

- VISION

- ✓ To ensure rural empowerment, development, and progress

- MISSION

- ✓ To facilitate the development of rural areas in Kenya through innovative and effective community development activities.

CONT...

- OUR VALUES
  - ✓ Working in partnerships
  - ✓ Commitment to excellence
    - ✓ Innovation
  - ✓ Integrity and accountability
    - ✓ Progressiveness.

# WHAT IS A BOREHOLE?

- A borehole is an alternative source of water in areas where there is no ready supply of water.
- A borehole is a narrow shaft bored in the ground to locate either water or oil. In this case our goal is the water

# WHY KAJIADO COUNTY?

- The water shortage in this area means a large population of women and children spend up to one-third of the day fetching water from the nearest water source.
- This leaves most of them vulnerable to water-borne diseases and other dangers.
- Developing a borehole reduces deaths related to water-borne diseases, will improve the quality of life, and help economically, and socially develop the county.

# WHAT WE CAN DO TOGETHER

- Provide access to clean drinking water and improve the health of the population through the promotion of hygiene, sanitation, and safety.
- Reduce cases of water-related diseases and death.
- Families within the community will acquire improved hygiene practices, less stress, and improved quality of life.

# PROPOSED PROJECT “CLEAN WATER FOR ALL”

- KADET aims to implement CSR projects for the purposes of alleviating poverty specifically through digging boreholes in marginalized areas. Areas that do not have easy access to water and therefore require women and children to walk tens of kilometers to search for this basic commodity.
- The goal of the project is to provide clean water to select villages in impoverished areas by digging boreholes, thereby providing a long-term solution to clean water scarcity.

# THE KADET PROMISE

- Our promise to you is to exceed our goals and expectations by initiating and executing fresh and progressive community development solutions for various rural communities in all 47 counties in Kenya.
- This we shall achieve through excellent service delivery, effective planning and strategic management, commitment to excellence, and building effective partnerships.

KADET

“WORKING TOWARDS THE  
ADVANCEMENT OF RURAL  
COMMUNITIES, ONE VILLAGE  
AT A TIME”
